CHIEF CLERK'S OFFICE

Docket No. 02-0249

ANSWER

Pursuant to 83 Ill. Adm. Code § 200.180(a) and the schedule set by the Administrative Law Judge in the above-captioned proceeding, Illinois Power Company ("Illinois Power") hereby provides the following Yaodi Hu's Answer to the Formal Complaint and Amended Complaint Against Illinois Power ("Amended Complaint").

1. With respect to the allegation that "Illinois Power refused to supply electric power because they want the city of Danville to force [him] to do extensive electric work converting the existing three service drop into one service drop with all the meter outside the building," Illinois Power admits that it has not provided electrical service to certain premises located between 428 and 432 East Main, Danville, Illinois 61832 because the premises have not received city approval for the electrical facilities. Illinois Power denies all other allegations made in this statement.
2. With respect to the allegation that "[b]oth apartments and 432 E. Main have completely rewired the whole electric about 10 years ago," Illinois Power does not have information sufficient to admit or deny the allegation, and therefore denies the same.
- 3 With respect to the allegation that "[there is] [n]o reason to do it [rewire the whole electric configuration] again," Illinois Power does not have information sufficient to admit or deny the allegations, and therefore denies the same.

4. With respect to the allegations in the first paragraph of the Amended Complaint; Illinois Power denies the allegation that it has retaliated against Mr. Hu. With respect to the remaining portion of the paragraph, Illinois Power does not have information sufficient to admit or deny the allegations, and therefore denies the same.

5. With respect to second paragraph in the Amended Complaint, Illinois Power does not have information sufficient to admit or deny the allegations, and therefore denies the same.

6. With respect to the third paragraph in the Amended Complaint, Illinois Power admits that electrical service was disconnected at the Complainant's address because of suspected tampering. Illinois Power denies all other allegations contained within the paragraph.

7. With respect to the fourth paragraph in the Amended Complaint, Illinois Power does not have information sufficient to admit or deny the allegations, and therefore denies the same.

8. With respect to the fifth paragraph in the Amended Complaint, Illinois Power denies the allegations contained therein.

9. With respect to the sixth paragraph in the Amended Complaint, Illinois Power makes no response to the allegations as the same requires none.

10. With respect to the seventh paragraph in the Amended Complaint, Illinois Power makes no response to the allegations as the same requires none.

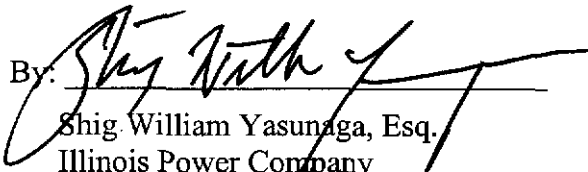

11. With respect to the eighth paragraph in the Amended Complaint, Illinois Power denies the allegations contained therein. The reason Illinois Power is not providing electrical service to the premise is because the premise has not received city approval for the electrical facilities.

12. With respect to the ninth paragraph in the Amended Complaint, Illinois Power denies the allegations contained therein. Illinois Power is not providing electrical service to the premise because the premise has not received city approval for the electrical facilities.

13. With respect to the tenth paragraph in the Amended Complaint, Illinois Power does not have information sufficient to admit or deny the allegations regarding the condition of the electrical services, and therefore denies the same. Illinois Power admits that there are meters under the Complainant's name at the location. Illinois Power denies all other allegations contained in this Paragraph.
